SUMMARY

Detail-oriented professional skilled in data-driven decision-making and analytical problem-solving. Proven experience with software tools enhances collaborative teamwork and project contributions. Analytical and detail-focused professional with experience in software tools. Recognized for strong data-driven decision-making abilities and collaborative teamwork. Prepared to contribute to innovative projects and enhance operational efficiency.

SKILLS

Statistical Analysis

Familiarity with A/B testing, hypothesis testing, probability, and Exploratory Data Analysis (EDA).

Deep Learning

Basic knowledge of neural networks and frameworks like TensorFlow and Keras

Python

Proficiency in core data science libraries, including Pandas, NumPy, and Scikit-Learn, for data manipulation and modeling.

Predictive Modeling

Solid understanding of supervised and unsupervised learning algorithms

PROJECTS

Explorika

Backend Developer

08/2025 – Present

- Developed and maintained RESTful APIs to enhance application functionality.
- Collaborated with front-end developers to integrate user-facing elements with server-side logic.
- Utilized version control systems, primarily Git, for efficient code management and collaboration.
- Wrote unit tests to ensure reliable and maintainable code within applications

C.R.A.B.

ML Engineer

02/2026 – 02/2026

- Constructed and enhanced machine learning models to boost data processing efficiency.
- Partnered with data scientists to validate model performance and enhance accuracy.
- Devised automated testing frameworks enhancing model deployment and integration processes.
- Enhanced data preprocessing and feature engineering efforts for various projects.

ColdDraft

AI Developer

11/2025 – 11/2025

- Developed and tested machine learning models to enhance predictive analytics capabilities.
- Collaborated with cross-functional teams to integrate AI solutions into existing systems.
- Assisted in data preprocessing and feature engineering for improved model performance.
- Conducted research on emerging AI technologies to support project innovation initiatives.
